

Free program

Bringing Up Great Kids

Supporting the development of positive, nurturing relationships between you and your child

A roadmap for understanding and responding to children's needs.

During this program, you will learn about:

- The underlying developmental needs influencing child development
- Brain development in children and its influence on their thoughts, feelings, learning, and behaviour.

Bookings essential. Please also inform at time of booking if you need creche options.

For more information and to register:
